First Generation Student

Are you a first generation college student? 0

Additional Context

Please use this section to share any additional information about your family background.

My mother worked two jobs for most of my growing-up time, as my father was unemployed. My mother pursued her master's degree after divorcing my father (I was 19 y.o.) to get a job and save money for retirement.

Employer Description

People with diabetes can use our devices to monitor glucose levels and view continuous readings on their smartphones, avoiding finger pricks. My team develops the cloud-based software that powers our mobile apps.

Your Role and Responsibilities

I engineer the software that enables internal personnel to send marketing and other communications to our users worldwide to increase engagement with our products and services. I coordinate with various teams to deliver software features.

Reason For Leaving

N/A

Key Accomplishments

In one performance review, I asked my manager for opportunities to develop leadership skills. I was granted a leadership role to oversee all aspects of my project. While I was successful, I learned I needed to build my leadership skills further.

Most Significant Challenge

As our new marketing communications platform proved effective and impactful, stakeholder demands grew faster than our development team could meet, and our team did not have a formal management structure to address all the corporate noise.

Short Answers

Employer Description

This small company contracts with the US government to conduct top-secret work in the digital signal processing field. The company organizes business units by contract. Most employees are electrical engineers, but I was a software engineer.

Your Role and Responsibilities

I worked on two main government projects: a cloud computing platform managing global data flow and an early-stage bid for a contract dealing with AI applications in space.

Reason For Leaving

I chose to leave top-secret government work for a company with fewer regulations, a collaborative environment, a chance to positively impact people's lives, and opportunities to gain a breadth of experience. I found each of these aspects at Dexcom.

Key Accomplishments

The company needed to release software while protecting our IP but didn't know how. I created a framework to meet this goal, presented it to leadership, and secured their approval to move forward with my plan.

Most Significant Challenge

I was surprised by how isolated my work was. I spent most of my time alone and could not discuss projects with unbriefed colleagues. The all-engineer workforce created an introverted environment, making collaboration challenging.

Additional Educational Background

Pell Grant Recipient ☒

Have you ever been the subject of disciplinary action at an academic institution (including, but not limited to, violations of academic integrity)?

Extracurricular Activity 1

Organization Church volunteer representative missionary

Role Volunteer and group leader

Type Community

Start Date 11/2017

End Date 11/2019

Location Charlotte, NC

Description

I worked 76-hour weeks to teach and serve communities in North Carolina. I fulfilled senior leadership strategic vision by leading groups of 8 and 18 peer volunteers.

Extracurricular Activity 2

Organization Church youth groups

Role Group leader for 14-15 year old young men in my congregation

Type Community

Start Date 05/2022

End Date 12/2023

Location Tucson, AZ

Description

I facilitated youth skill-building and character development by organizing weekly 1-2 hour activities and weekly 1-hour theological lessons.

Extracurricular Activity 3

Organization BYU Computer Science department

Role Teaching assistant

Type College/University

Start Date 04/2020

End Date 04/2022

Location Provo, UT

Description

I held office hours to support struggling students by providing improvement roadmaps, identifying logical disconnects, and explaining concepts in relatable terms.

Award / Recognition 1

Title BYU Cum Laude Undergraduate Graduation Honors

Date April 2022

Basis

Awarded to students with a cumulative resident GPA of 3.95/4 or above (top 5.1-10% of graduating class)

Award / Recognition 2

Title BYU "Robert R. & Vera S. Cederlof" scholarship

Date August 2021

Basis

Awarded for academic excellence, preference to those with financial need; awarded 100% tuition for 2 semesters

Award / Recognition 3

Title BYU "Nile R. and Gail M. Brown" Scholarship

Date August 2020

Basis

Awarded for academic excellence, preference to those with financial need; awarded 50% tuition for 2 semesters

Essay 1

Business-Minded: Please reflect on how your experiences have influenced your career choices and aspirations and the impact you strive to make on the businesses, organizations, and communities you plan to serve.

Response

When I was 18, I watched as firefighters escorted my dad out of a psychiatry clinic to be involuntarily committed to a facility. Years earlier, my dad had suffered a series of mini-strokes that damaged vital brain areas, leaving him with a severe personality disorder. Healthcare professionals said that commitment was our only option. I felt helpless to fix my dad's situation, and I don't want other people to suffer similarly. I've seen how adverse health conditions can tear families apart and leave lasting scars. I want to develop treatment options to alleviate the suffering caused by health problems and give people hope.

My long-term goal is to start a venture that delivers a novel medical therapy at scale. Out of undergrad, I took an engineering job at a government contractor company and completed a master's degree in computer science. However, I soon felt unfulfilled because I wasn't positively impacting people's health or progressing toward my long-term goal, so I joined Dexcom, trading better pay and benefits for a chance to learn about the MedTech industry's impact on health, which I can apply to my future venture.

Then, I decided I needed experience leading people, so I asked my manager for opportunities to lead. When my team lead moved to a different project, I assumed his responsibilities: designing software architecture, production support, task delegation, supporting team software development, and coding. My team was too understaffed to deliver features on time. However, by learning to focus my effort on the most critical responsibilities, I was able to maximize my effectiveness and align my development team with product management.

I aim to learn product innovation and gain industry experience beyond engineering. Harvard will provide the management skills and network I need to become a MedTech product manager and eventually launch my venture.

Essay 2

Leadership-Focused: What experiences have shaped who you are, how you invest in others, and what kind of leader you want to become?

Response

When I started my first job, my manager gave me a toy project to work on while waiting for my government clearance approval, and I didn't hear back for two months. His lack of leadership taught me to engage with my team actively. Years later, one of my team members burned out from working and pursuing his degree full-time. Having recently done the same with my master's degree, I coached him on navigating his burnout and persuaded him to make behavioral changes. I will use personal experience to enhance my persuasive leadership.

At Dexcom, I was frustrated with the time my team spent fighting our programming language. I researched alternatives and developed a proof-of-concept to convince leadership to let us use a new language. I then implemented a strategy to onboard my team to the new language while reducing development friction. I will be a leader who challenges the status quo.

As a missionary, I met Jake, a peer struggling in many personal areas. I taught Jake regularly, and he soon began making positive changes. I integrated Jake with our congregation and introduced him to Mark Beck, an HBS grad class of 1996. Mark took Jake under his wing in a way I'd never seen. Jake had nothing to offer Mark professionally, economically, or otherwise. Mark's influence is the principal factor in why Jake turned his life around and is now happily married with two children. Like Mark, I want my leadership influence to extend beyond the world of business.

Essay 3

Growth-Oriented: Curiosity can be seen in many ways. Please share an example of how you have demonstrated curiosity and how that has influenced your growth.

Response

At Dexcom, my team lead solicited designs to make our platform compliant with various global data regulations. I proposed one design, and a senior engineer suggested one that missed the mark in several critical technical areas. My solution took fewer development resources, was more efficient, had lower maintenance costs, and provided stronger guarantees than the other design. However, my team lead proceeded with my senior engineer's design.

I'm sure this more senior engineer saw the benefits of my solution. Why did he arrive at a solution contradictory to mine? I met with him to dig deeper into his logic and discovered that he had considered a bigger picture than I did. My solution had one critical flaw that his solution did not: my solution created a dependency on other teams, likely reducing team agility. With that understanding, I felt more empowered to develop his solution.

In this situation, I sought to understand my senior engineer's choices when they did not make sense to me initially. We developed a mutual understanding, and I built a stronger working relationship by probing deeper into his reasoning. Initially, I thought my team lead gave his solution precedence because he was my senior, but by increasing my understanding, I learned to value his experience and not become disgruntled. I've decided to never get defensive about my ideas. Instead, I seek first to understand the perspectives of others so that we can more effectively arrive at workable solutions.

Post-MBA Goals

Industry Health Care / Biotech - Technology (HealthTech / MedTech)

Function Product Management

Briefly tell us more about your career aspirations.

Having seen the devastating impact of mental and physical disorders on my own family, I seek to be a leader in healthcare by enhancing treatment access and driving innovation. At Dexcom, I've seen how innovation can help people with diabetes. My technical background will serve me as I transition into product management. My long-term goal is to launch a venture that improves health outcomes at scale, bridging the gap between healthcare innovation and real-world adoption.

Additional Information

Please share additional information here if you need to clarify any information provided in the other sections of your application. This is not meant to be used as an additional essay. Please limit your additional information to the space in this section.

For my letters of recommendation, I report to Peter Ajemba, but Steven Lai oversees my day-to-day work in his role as team lead. I listed Peter as my direct supervisor, but there may be some discrepancies in whether my recommenders list themselves as "current direct supervisor".

A random incomplete GMAT score was automatically attached to my application when I created it. I can't edit or remove the score. I only have two GMAT scores.

Additional Questions and Information

If admitted, are you willing to have information from your application released to alumni, staff and current students for contact purposes? ☒

Do we have your permission to send you text messages for communication purposes? ☒

Have you ever been the subject of disciplinary action (including, but not limited to, during military service or at place of employment)? Please do not include disciplinary action at academic institutions.

Have you ever been convicted of a felony (a crime with a punishment of more than one year in prison)?

Statement of Application Integrity

I hereby certify that the information presented in my application is accurate, complete, and honestly presented. I understand that it is my obligation to notify Harvard Business School immediately if there are any changes in the information I have provided in this application. I authorize all persons and entities herein named to provide information to Harvard Business School (HBS) or its agent to verify any aspect of my application and/or my credentials for admission. I understand HBS or its agent may take additional steps to fully consider all aspects of my candidacy. I understand and agree that any inaccurate information, misleading information, or omission will be cause for the rescission of any offer of admission, or for discipline, dismissal, or revocation of degree if discovered at a later date.

Offers of Admission: HBS Policy

- We review all submitted applications. It is your responsibility to ensure that we receive all of your application materials, including recommendations.
- You may apply in one round only once per application year.
- Admissions decisions are communicated to candidates online; admitted candidates also receive a PDF copy of the letter with a signature.
- Admissions decisions are communicated only to applicants.
- The MBA Admissions Office reserves the right to rescind offers of admission of any candidate between the time of admission and matriculation if we become aware of any conduct that we reasonably determine to be inconsistent with the HBS Community Values or MBA Program Honor Code.
- The MBA Admissions Board does not provide individualized feedback to candidates who are denied admission.

I have read the above statement of application integrity and HBS policy regarding offers of admission and, in submitting my application, accept these terms.

*I ACKNOWLEDGE*

Consent regarding Sensitive Personal Data

During the application process, you or others, such as recommenders, may provide Harvard Business School with certain kinds of personal data about you that some laws regard as sensitive and deserving of special protection ("Sensitive Personal Data"). For example, in Europe, Sensitive Personal Data can include personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership; genetic or biometric data; data concerning health; data concerning a natural person's sex life or sexual orientation; and personal data relating to criminal convictions and offences. You can find further information about how Harvard Business School uses personal data of individuals in Europe in the admissions process here.

Harvard is seeking your consent to process Sensitive Personal Data about you in order to evaluate your application for admission and your eligibility for financial aid, if applicable. Sensitive Personal Data about you also may be processed for other purposes permitted by applicable law. We need your consent in order to be able to process your application.

Offers of Admission: HBS Policy*I CONSENT TO THE PROCESSING OF MY SENSITIVE PERSONAL DATA, AS REQUESTED ABOVE.*

Statement of Application Authenticity

I hereby certify that the information presented in my application is accurate, complete and honestly represented. In the spirit of the HBS Community Values, I have not claimed AI output nor the work of others as my own original work.

✓ I ACKNOWLEDGE

EXPERIENCE**DEXCOM, RESEARCH AND DEVELOPMENT (NASDAQ: DXCM)****FARMINGTON, UT***Software Development Engineer II**11/2023 – present**Software Development Engineer I**12/2022 – 11/2023*

Dexcom is an industry leader in glucose monitoring devices for diabetes management, having 2.3 million users globally and \$3.6B revenue FYE 2023.

- Led a team of four engineers to develop a software platform to facilitate marketing communications via mobile app messaging
 - o Increased new product adoption by 400% in a one-week period and accounted for 20% of new product adoption overall by launching a marketing campaign via my platform
 - o Increased feature velocity by persuading product management to invest more time in addressing critical architecture changes against pressure to develop new features
 - o Gained industry newsletter recognition for developing an innovative platform not found elsewhere in the medical devices industry
 - o Reduced software deployment process time by 90% by advising against using an in-house solution and instead taking ownership of the software deployment process
- Increased feature velocity by securing leadership approval to use a modern software language
- Decreased software feature go-to-market time by leading presentations on technical practices to ~60 R&D personnel, propagating adoption of the practices by other teams

RINCON RESEARCH CORPORATION**TUCSON, AZ***Research/Scientist I**05/2022 – 12/2022*

Rincon Research Corporation is a small company that contracts with the US Intelligence and Defense communities. My work responsibilities were top-secret, so I am limited in the detail I can discuss.

- Advised leaders on integrating novel computing technologies into current products by developing a software prototype and presenting findings to leadership
- Enhanced customer data analysis ability by building a system to gather data from various global sources to one centralized cloud-based location

EDUCATION**UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN****URBANA, IL***Master of Computer Science. GPA 3.87/4.0**2022-2023***BRIGHAM YOUNG UNIVERSITY****PROVO, UT***Bachelor of Science in Computer Science, Minor in Business. Cum Laude. GPA 3.97/4.0**2020-2022*

- Oak Ridge National Lab intern and BYU Human-centered Computing Lab research assistant
- Computer science teaching assistant; ~20 hours per week throughout the entire program

ADDITIONAL

- **Volunteer Missionary**, *The Church of Jesus Christ of Latter-day Saints* (2017-2019)
 - o Accelerated proselyting efforts by leading a team of 18 volunteers
- **Co-authored** a paper published in the world's largest technical professional organization (IEEE)
- **Eagle Scout Award Recipient**, *The Boy Scouts of America* (2012)
