Program Type

You may only apply to Wharton for the year you intend to enroll. Deferrals for alternative program start dates will not be granted.

Are you concurrently applying to or currently enrolled in another program with the intent to pursue a dual degree? **No**

Dual Degree Program:

Previous Application

Have you previously applied to Wharton? **No**

Which program did you apply to?

In which academic year would have started the program?

What was the previous application decision?

Demographic

Sex: **Male**

Gender Identity: **Male**

Sexual orientation or sexual identity? **Heterosexual**

Pronouns: **He, Him, His**

Do you identify as a lesbian, gay, bisexual or transgender person? **No**

Out for Business, Wharton's graduate LGBTQ+ professional and social club, has expressed an interest in contacting admitted students who identify as lesbian, gay, bisexual, transgender, and queer. If admitted, may we share your contact information with Out for Business?

Military Information

Are you currently or have you served in the military? **No**

If yes, was it the US Military?

If no, are you the spouse or dependent of someone who is currently serving or who has served in the US Armed Services? **No**

Which branch?

Military Fee Waiver?

Non-US military branch?

Family Information

General Family Information

Do you come from a family within the established low-income thresholds? **Yes**

Are you the first generation to attend college? **No**

Parent/Guardian

Name: **Lestelle Schwab**

City, State, Country: **Farmington, UT, United States**

Colleges: **Brigham Young Univ., Western Governors Univ.**

Degrees: **B.S. International Relations, Master's IT Mngmt**

Employer: **N/A**

Position: **Retired**

Deceased? **No**

Name: **Stephen Greenwalt**

City, State, Country: **Ogden, UT, United States**

Colleges: **Averett University**

Degrees: **B.S. Business Management**

Employer: **Arby's**

Position: **Line cook**

Deceased? **No**

Spouse/Partner's Information:

Name: **Natalie Greenwalt**
City, State, Country: **Farmington, UT, United States**
Colleges: **Brigham Young University-Idaho**
Degrees: **B.S. in Marriage and Family Studies**
Employer: **N/A**
Position: **Full-time Student**

Is your spouse, spouse-to-be or domestic partner applying to Wharton this year? **No**

If yes, which round?

Will you have children at time of your enrollment? **Yes**

Is your spouse, spouse-to-be, or domestic partner a current Wharton student? **No**

University Relations

Please list the names and class years of any family members who attended Wharton or Univ. of Penn.

Name: **Scott Doughman**

Relationship: **Uncle-in-law**

Class Year(s): **1996**

Community Honors/Recognitions

List any awards, recognitions, honors, and/or fellowships/scholarships that you have received in your collegiate or broader personal communities.

Eagle Scout Award Recipient - Boy Scouts of America - 2012
National Technical Honors Society Inductee - 2016

Conduct

Have you ever been placed on probation, dismissed, or suspended from any college or university for reasons pertaining to academic and/or campus judicial integrity? If so, please enter a statement below. **No**

Extracurricular Activities/Community Engagement

Please list your extracurricular activities, community involvements, and/or responsibilities that you participated in during or after your collegiate years. We recommend that you list it in order of greatest significance.

- 1)

Activity Type: **Religious**

Club/Organization/Activity: **The Church of Jesus Christ of Latter-day Saints**

Position/Leadership Description: **Volunteer representative missionary**

Calendar Years Involved: **2017-2019**

Hours per Month/Hours per Year: **330 hours per month / 12 months**

Brief Description: **Taught individuals and performed community service in North Carolina. Fulfilled leadership vision by leading groups of 8 and 18 other volunteers.**
- 2)

Activity Type: **Religious**

Club/Organization/Activity: **The Church of Jesus Christ of Latter-day Saints**

Position/Leadership Description: **Youth Group Leader**

Calendar Years Involved: **2022**

Ethics Code and Statement of Integrity

Generative AI Policy

The Wharton School of Business embraces the use of generative AI technology and sees it as an important tool for business leaders in this rapidly changing world. While we believe that generative AI will continue to provide utility to all students, your work contained within this application must be your own. We recommend applicants treat generative AI as you would the guidance or writings of another person. For example, this means that, as it is unacceptable to have another person substantially complete a task like writing an admissions essay, it is also unacceptable to have AI substantially complete the task.

By embracing AI responsibly, Wharton aims to uphold the integrity of the application process while leveraging technological advancements to enrich the admissions experience. The Wharton School of the University of Pennsylvania requires that the work in your application must be completely accurate and exclusively your own and may use its own proprietary and/or licensed AI solutions in order to identify AI-authored elements of applications. Any such flagging will result in a more holistic investigation of an application.

By checking the box, I confirm that I will adhere to Generative AI Policy.

I agree. **Yes**

Statement of Application Integrity

The Wharton School of the University of Pennsylvania requires that the work in your application is completely accurate and exclusively your own. Offers of admission are subject to being rescinded should any misrepresentation and/or omission occur. Expulsion from the program is also an option.

I understand that the Wharton School of the University of Pennsylvania requires that the work in my application must be completely accurate and exclusively my own. I understand and agree with this policy and hereby certify that I have provided accurate, complete, and not misleading information in this application. I understand that if I matriculate the school or its agent will conduct a background verification check on my credentials and I understand that there may be a nominal fee for this service. As a result, I authorize all persons or entities to provide any relevant information in their possession to the University of Pennsylvania or its agent for use in considering me for admission and matriculation. I expressly waive any required notice to me under any relevant law.

In the event that Wharton discovers any misrepresentation, omission, or fraud in my application or the accompanying materials (or any suspicion thereof), I understand and agree that Wharton reserves the right (without any obligation to refund any previously paid tuition or fees) to (i) defer its offer of admission to me, pending satisfactory completion of an additional background verification check; (ii) rescind its offer of admission to me; (iii) expel me from the Wharton School (and my program); and/or (iv) contact state or federal law enforcement if Wharton uncovers evidence regarding potentially criminal fraud or impersonation.

Wharton also reserves the right to rescind my offer of admission if I show a significant drop in academic performance or fail to graduate from any academic institution in which I am currently enrolled when submitting my application. This is my own, honest statement to the Admissions Committee.

☒ By checking the box, I confirm that I will adhere to Wharton's Statement of Application Integrity

Wharton's Graduate Code of Ethics

Wharton students, faculty and administrators strive to maintain the highest standards of academic integrity and overall ethical conduct. Adhering to these standards fosters an environment of trust and cooperation which supports superior performance at Wharton and throughout the careers of Wharton graduates. These standards are embodied in the Wharton Graduate Code of Ethics.

☒ I will adhere to Wharton's Graduate Code of Ethics.

General Data Protection

The Wharton MBA Admissions Office partners with our alumni clubs to communicate with admitted students and welcome them to the community. Does the Wharton MBA Admissions Office have your permission to provide your information, such as your name, email address, and/or phone number, to select members of the Wharton community for such purposes, should you be admitted? *Please know that your decision to opt out of communications will not affect your application decision.*

☒ Yes ☐ No

Essays

Essay 1

How do you plan to use the Wharton MBA program to help you achieve your future professional goals? You might consider your past experience, short and long-term goals, and resources available at Wharton. (500 words)

When I was 18, I watched as firefighters escorted my dad out of a psychiatry clinic to be involuntarily committed to a facility. Years earlier, my dad had suffered a series of mini-strokes that damaged vital brain areas, leaving him with a severe personality disorder. Healthcare professionals said that commitment was our only option. I felt helpless to fix my dad's situation, and I don't want other people to have to go through that. I've seen how adverse health conditions can tear families apart and leave lasting scars. I want to develop treatment options to alleviate the suffering caused by health problems and give people hope.

My long-term goal is to start a venture that delivers a novel medical therapy at scale. However, I have neither previous entrepreneurial experience nor a network of people who share my ambition. Before pursuing entrepreneurship, I plan to use my computer science background and the Wharton MBA to become an innovative product manager in the healthcare industry at a company like Pfizer or Redesign Health.

My software engineering experience at Dexcom has prepared me to make this transition. I learned the product lifecycle from an engineer's perspective by taking a software platform from concept to MVP. I then led my development team for several months, during which I persuaded my product manager to grant the development team additional time to address critical architecture problems so that we could accelerate development. Next, I wanted to increase the rate at which my developers could create new features further, so I persuaded my leadership to approve using a new programming language by developing a proof-of-concept. I then implemented a strategy to onboard the other engineers to the new language while reducing development friction. I have experience getting a development team to work harmoniously with product management, and that experience will help me in the product manager role.

I will major in Health Care Management and Entrepreneurship and Innovation at Wharton. Management and Strategy in Medical Devices and Technology will teach me how to treat "software as a medical device" as I seek to apply my computer science background to develop new medical therapies. Health Care Entrepreneurship will prepare me to launch a venture in an industry with high barriers to entry. The Product Management course will show me how to innovate and be agile in a heavily regulated industry.

I will apply to the Fall semester at the San Francisco campus, where I will use the immersive environment to learn how to innovate in the face of extensive regulations and make connections that will help me transition into product management. In the San Francisco campus curriculum, The Finance of Innovation will teach me how to raise capital for my future capital-intensive venture. The Negotiations course will prepare me to negotiate with healthcare providers and vendors in the healthcare industry.

I will join Venture Labs as an "explorer," where I will build my network of entrepreneurial-minded individuals and learn first-hand what it takes to launch a venture.

Essay 2

Taking into consideration your background – personal, professional, and/or academic – how do you plan to make specific, meaningful contributions to the Wharton community? (400 words)

Given my undergrad and grad degrees in computer science and my professional experience as a cloud computing software developer, I know how to take software from idea to useable service while navigating the technical intricacies and limitations of cloud computing. In the Entrepreneurship Club, I will help my clubmates assess the viability of their ideas, propose technical solutions, and help build prototypes.

At Dexcom, I wanted to reach outside my day-to-day responsibilities, so I asked to help conduct interviews to hire software engineers. In my interviews, I learned how to discern top talent and that resumes can be deceiving. Companies--especially start-ups--need to acquire top engineering talent to stay competitive, and innovators with great ideas can stumble in finding sound engineers to build their ideas. I will use my experience vetting software engineering candidates to help my classmates in the Entrepreneurship Club source the "builders" for their ideas. In the Healthcare Club, I want to lead a workshop on hiring practices for software engineers.

When I started working at Dexcom, the workload requirement for regulatory accountability equaled actual development. In other words, I spent about half of a software release cycle doing documentation and regulatory work. This burden slowed down the rate at which my team could innovate. I decided to automate much of our regulatory documentation creation so that we could spend more time creating actual value rather than dealing with overhead. In the Healthcare Club, I want to give a presentation at a club event on the importance of agile development while conforming to regulatory processes.

Complex technical concepts can be difficult for students to learn and internalize, especially if they have yet to gain prior experience in the subject area. During my undergrad program, I worked as a teaching assistant for the Computer Science department and helped hundreds of students--especially those who struggled--understand and apply complex technical concepts. I can help my Wharton classmates understand complex concepts related to my expertise by using questions to identify areas of logical disconnect and explaining concepts in simple terms.

Finally, I plan to start the MBA Chess Club at Wharton. I played in the Chess Club at BYU and found that non-competitive chess games are an excellent way to meet people and have one-on-one discussions. I want to bring that same networking capability to Wharton.

Additional Information (Optional)

Please use this space to share any additional information about yourself that cannot be found elsewhere in your application and that you would like to share with the Admissions Committee. This space can also be used to address any extenuating circumstances (e.g., unexplained gaps in work experience, choice of recommenders, inconsistent or questionable academic performance, areas of weakness, etc.) that you would like the Admissions Committee to consider. (500 words)

For my letters of recommendation, I report to Peter Ajemba, but Steven Lai oversees my day-to-day work in his role as team lead. I listed Peter as my direct supervisor, but there may be some discrepancies in whether my recommenders list themselves as "current direct supervisor".

My GMAT Quantitative percentile is not as high as I would have liked, but I am confident that my quantitatively rigorous academic and professional background are sufficient to help me excel at the Wharton MBA program.

>> If applicable, list any academic honors, awards, recognitions, fellowships, etc. received during your educational career.
(Cont.)

- BYU Dean's List
- Utah Regents Scholar -- awarded \$1k/semester for 4 semesters in college for high school academic excellence and a one-time \$1,250 scholarship for exemplary high school performance.

High school high honor roll in all semesters - graduated with 4.0 GPA
